

Course 40365A: Windows Server Administration Fundamentals: MTA Exam 98-365

Three Days, Instructor-Led

About this course

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-365, and build an understanding of these topics: Server Installation, Server Roles, Active Directory, Storage, Server Performance Management, and Server Maintenance. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Audience profile

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

At course completion

After completing this course, students will be able to:

- Understand Server Installation
- Understand Server Roles
- Understand Active Directory
- Understand Storage
- Understand Server Performance Management
- Understand Server Performance Management
