

Course 40366A: Networking Fundamentals: MTA Exam 98-366

Three Days, Instructor-Led

About this course

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-366, and build an understanding of these topics: Network Infrastructures, Network Hardware, and Protocols and Services. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Audience profile

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

At course completion

After completing this course, students will be able to:

- Understand Network Infrastructures
- Understand Network Hardware
- Understand Protocols and Services

Course Outline

Module 1: Understanding Local Area Networking

Module 2: Defining Networks with the OSI Model

Module 3: Understanding Wired and Wireless Networks

Module 4: Understanding Internet Protocol

Module 5: Implementing TCP/IP in the Command Line

Module 6: Working with Networking Services

Module 7: Understanding Wide Area Networks

Module 8: Defining Network Infrastructures and Network Security

Course Inclusions:

- Microsoft Official Curriculum (MOC) and/or Wizards Learning Courseware (WLC)
- Microsoft Certified Trainer (MCT)
- Lunch, AM and PM Snacks
- Certificate of Achievement
- Course Note
